

Wayne County
Defender Training

Forensic Sciences Debrief

March 25, 2026 | Zoom | Noon-1:30 PM | Up to 1.5 CLE

In December 2025, the Michigan State Police Science Division hosted a two-day conference, open to defense attorneys, prosecutors, police, judges, and forensic scientists.

In this training Erin Van Campen and Jason Eggert will provide key takeaways from the conference. Topics will include practice tips for obtaining and requesting discovery, preserving the right to confront forensic analysts, and highlighting forensic disciplines where defense attorneys should consider filing *Daubert* motions and engage defense experts.
